	\$122.48
	\$1,601.68

In rendering the above report of Highways, Sidewalks and Macadamizing Park and Elm streets, would say that we have laid sewer pipe on Pleasant and Park streets, with two catch-basins costing \$65; relaid 42 culverts, built three new ones; concreted Piper bridge, costing \$10; breaking roads from Dec. 1897 to Feb. 14th, \$198.05, breaking sidewalks to the amount of \$68, from Dec., 1897 to Feb. 14th. The roads were badly washed in June freshet and called for more than the usual amount of labor.

The macadamizing of Park and Elm streets. We removed earth on Park street to the amount of \$20; removed earth on Elm street and covered the road from the watering trough to town house with the material, costing about \$45; transported the Crusher, Engine and Roller from Franklin, set it up and returned it, which is included in the total cost, \$898.42. The road macadamized is 1,200 feet in length, 26 feet wide, depth 1 foot in center to 8 inches at outside before the roller was put on to it, containing 3,500 yards, costing about 26 cents a surface yard. We worked under disadvantages on account of wet weather.

J. E. SMITH, } Highway Agents.
BYRON SHAW, }

Report of the School Board

FOR THE

Town School District of Northfield.

At the annual district meeting of 1897, O. T. Lovéjoy was elected a member of the school board for three years, and Otis C. Wyatt was elected treasurer of the district for the ensuing year. At the annual organization, C. J. Chamberlain was elected chairman, with O. T. Lovejoy as secretary.

The same method used in former years, for furnishing supplies and special supervision, has been pursued in the year just closed, it having been found to be the best yet devised to accomplish the desired result. Three changes in books have been made during the year. The Spencerian system of vertical penmanship has displaced the old slanted style. Barnes' geographies have taken the place of Butler's, and the graded arithmetics have been discarded for Milne's new series. The books adopted are superior to the old ones and have proved very attractive to the scholars. On the whole we have had an able corps of teachers throughout the town. It will be seen by the following special reports that our schools have passed through another year with a very gratifying degree of prosperity.

BAY HILL.

Summer term taught by Miss Louise Emery, who sustained her former reputation as a thorough scholar, good disciplinarian and accurate instructor. Marked improvement was made in every direction.

Fall term was under the instruction of Miss Mamie A. Smith, a teacher of energy and enthusiasm, whose labors gave excellent satisfaction.

CENTRE.

Both terms taught by Miss Kate Sanborn, who is a faithful teacher, and the school under her charge made excellent progress.

OAK HILL.

Miss Josephine Weeks conducted the summer term. Good order and harmony prevailed throughout the term, and good progress was made.

A little over seven weeks of the fall term was taught by Miss Melinda Simonds, who is an experienced and well qualified instructor. Sickness prevented her finishing a decidedly profitable school. Miss Simonds was succeeded by Miss Ethel Morse. Although this was her first experience, she proved to be a hard working teacher, and during her short charge accomplished as much as could reasonably be expected.

HODGDON.

This district has again been fortunate in securing Mrs. Nellie J. R. Scribner, as teacher for both terms, and under her care the school made commendable advancement.

RAND.

Both terms taught by Miss Etta F. Heath, who is so well known as a teacher, both in this and other towns, that her presence in the school-room is a guarantee of success. She devotes herself thoroughly and completely to the work of teaching, and the result is always exceedingly gratifying.

BEAN HILL.

Summer and fall terms taught by Miss Sally F. Colby. This was Miss Colby's first experience as a teacher, she entered upon her duties with a good will, giving general satis-

taction. The scholars were diligent and orderly, and made very good progress.

TEBBETTS.

Summer and fall terms taught by Carrie J. Tibbetts, a lady who has the support of the citizens of the district as well as the love and respect of her pupils. Having taught the school the year previous, she was able to bring to bear experience of value, and both terms gave good satisfaction.

Respectfully submitted,

C. J. CHAMBERLAIN,	} School

ANNUAL REPORT
OF THE
BOARD OF EDUCATION,
UNION DISTRICT.

The Board of Education are again called upon to make the annual report.

The same teachers have been in school this year, as last. Some of our teachers have seen fit to attend the summer school at Durham, with both pleasure and profit to themselves, and indirectly with benefits shown in our schools. The Board have, also, very urgently recommended their attendance at the Teachers' Institutes, held from time to time. The law gives five days of every school year to each teacher, for the purpose of visitation, in this manner, and the time thus spent has been well spent.

Our schools are improving, both in scholarship and interest. We consider the Seminary Course to be an incentive to good work in the graded schools.

During the year the course of study has been revised, and we hope to have a copy in every family where children attend school, as soon as the pamphlet is received from the printer.

We are endeavoring to correct some of the evils incident to our schools, for we are sorry to say that all of our scholars have not appreciated their opportunities, and we have been obliged to compel attendance at school in some instances.

The law makes school attendance obligatory, and it has been

the aim of the Board to see that this law is obeyed.

Parents should remember that they have a duty in this regard, as the law requires them to cause their children to attend school.

According to instructions given at the last annual meeting, the school house has been newly shingled. It was also found necessary to replace the old gutters with new in the valleys of the roof.

The outside steps were in an unsafe condition, consequently in the summer vacation, new steps were built.

The recommendations of last year were adopted at the annual meeting, as regards outside scholars, and in substance, it is: that pupils will be admitted, provided they may be accommodated without interfering with our own interest, by paying a tuition of thirty-five cents per week in the four lower rooms, or forty cents per week in the first grammar grade, and fifty cents per week in the second grammar grade. Fractions of a term to be reckoned as whole terms except in case of sickness.

The annual meeting will be called for March 18, at 7.30 p. m. At that time it will be in order to hear the report of the special committee, appointed at the last meeting, for the purpose of investigation with reference to a new building.

It may be well to call attention of the District to the fact that when our present building was erected some 25 years ago it was not intended to have more than four rooms in the building, and at that time only *two* were finished.

We now have six rooms, and of these, two were obtained by putting a partition in the middle of a room which was none too large before. The sixth room was obtained in a manner familiar to all. Some of the primary requisites of school rooms, are plenty of air, good light, and ventilation. At the present time we have 83 scholars in a space originally intended for about 40 scholars. Attention is called to these facts

that the district may more intelligently grasp the situation.

A new building seems to be an imperative necessity in the very immediate future, both on account of the physical necessities of the case, and on account of the prospective health and well being of the pupils.

During the year there have been registered different pupils as follows:

		At this moment.
1st Primary,	68	48
2nd “	49	35
1st Intermediate,	58	46
2nd “	26	26
1st Grammar,	43	38
2nd “	28	26
	Total, 272	Total, 219

It has been thought by some that perhaps one failure ought not to entirely disqualify the students in our Seminary course; hence it has recently been determined that where a scholar fails to pass in the term's work at the Seminary, to allow the scholar another opportunity, and when he either passes a special examination, or makes up the work, at his expense, the pupil may be reinstated for the balance of the two year's course. We hope this will meet with the approval of the entire district.

In times past much has been said about parents visiting the schools more; and at this time it does not seem expedient to allow the subject to go unnoticed. It is, of course, not possible to obtain an entirely correct view of the schools simply with one visit, but may we not urge upon the parents of our school children the need, as well as the benefit, derived from frequent visits in all the school rooms.

Teachers always appreciate any interest shown in their work,

and an earnest and faithful teacher will be more faithful if parents appear to be interested. Then, too, the children are always glad to see father or mother in the school room, and we feel sure will prove more studious and attentive if such interest is shown.

ARTHUR T. CASS,	}	Board
